

Gas Technician 3 (G3) Certificate of Qualification

PART-TIME PROGRAM - **Start Date - June 26th, 2018**

A **Gas Technician 3 (G3) Certificate of Qualification** is a mandatory pre-requisite for anyone entering the industry as a Gas Technician. To obtain a **Gas Technician 3 Certificate of Qualification** you must:

- Complete standardized training, delivered by a **Technical Standards and Safety Authority (TSSA)** accredited training provider such as Toronto Appliance Service LTD, in accordance with the TSSA training profiles and curriculum.
- Achieve a passing grade of 75% on TSSA theoretical examinations and practical assessment upon completion of Gas Technician 3 course training.
- Maintain an 80% attendance record throughout the training program.

The course will help prepare you for the TSSA theoretical examination and practical assessment for Gas Technician 3 Certification. This is an entry level program for those individuals wishing to start a career in the Gas Technician trade, or those seeking to upgrade their skills in the Heating, Ventilation, and Air Conditioning industry (HVAC). This program covers the G.3 modules 1 to 9 and the applicable codes, acts and regulations. Students will take part in both theoretical and practical studies, to provide them with the full knowledge of the skills, safety procedures and theories they will require as Gas Technician 3 certificate holder.
